Cory stated that these projects will continue forward, even with the change in Council and staff.

10. Council Comments

Councilor Briese believes there are a lot of positive outcomes that came out of this partnership and is excited to see some of these projects come to fruition. Councilor Heaton stated that La Pine is going to have to get used to seeing more bicycles on the road and that everyone has to participate on making it safer. Councilor Martinez is glad La Pine was able to partner with SCYP. He feels that some of the information was duplicative, but he feels like it was a good thing because it shows we're on the right track. He feels it was greatly important for the students to partner with a small city verses a large one, especially one rural like La Pine. Councilor Greiner commented on the Senior Center part of the program and that they've elected a new active board member that's really started to move forward in a good direction. Student Councilor Tennant has seen nothing but excitement about this and appreciates the Safe Routes to School and pedestrian connectivity the most.

11. Mayor's Comments

Mayor Scott is excited about moving these projects forward into the future. He wants to make sure these projects are carried on to the next Council and staff. Megan and Katie stated they are happy to work with new people that come on board to make sure that happens. They could come back in January to present to the new Council.
